

Detailed_Explanation

Temperature Lines

In this tutorial, we are creating a line plot of a temperature index. The graph reproduced is below.

Loading packages used in the tutorial

```
-- Attaching packages ----- tidyverse 1.3.1 --

v ggplot2 3.3.5      v purrr   0.3.4
v tibble  3.1.6      v dplyr   1.0.8
v tidyr   1.2.0      v stringr 1.4.0
v readr   2.1.2      v forcats 0.5.1

-- Conflicts ----- tidyverse_conflicts() --
x dplyr::filter() masks stats::filter()
x dplyr::lag()    masks stats::lag()
```

You can add options to executable code like this

```
2 * 2
```

```
[1] 4
```

The `echo: false` option disables the printing of code (only output is displayed).
